

IN 2006, ARIEL SHARON WAS A 77 YEAR OLD OBESE MAN (WITH A CARDIAC DEFECT) WHO EXPERIENCED BOTH AN EMBOLITIC AND A HEMORRHAGIC STROKE WITHIN A 3 WEEK PERIOD.

DUE TO THE MASSIVE UNCONTROLLED BLEEDING IN HIS BRAIN FROM THE SECOND STROKE HE UNDERWENT FIRST, A SEVEN HOUR SURGERY AND THEN A FOURTEEN HOUR SURGERY THAT LEFT HIM PARALYZED.

WITHIN A MONTH, HE UNDERWENT YET ANOTHER SURGERY, THIS TIME REMOVING NECROTIC GUT (PART OF THE LARGE INTESTINE HAD DIED FROM A CLOT).

SHORTLY AFTER THAT SURGICAL INTERVENTION, THERE WAS ANOTHER SURGERY REQUIRED, THIS TIME ON HIS STOMACH FOR FLUID ACCUMULATION.

NEXT MEDICAL SETBACK, HE STARTED HEMODIALYSIS FOR FAILING KIDNEYS AND ALSO HAD A BLOOD INFECTION (SEPSIS).

HE THEN HAD DOUBLE PNEUMONIA AND LATER A CARDIAC (HEART) INFECTION WHICH WERE ALL RESOLVED WITH IV ANTIBIOTICS.

SO WITHIN LESS THAN A YEAR AFTER HIS TWO STROKES, ARIEL SHARON HAD FOUR SURGERIES, A BOUT OF DOUBLE PNEUMONIA, A BLOOD INFECTION (SEPSIS), A HEART INFECTION AND RENAL (KIDNEY) FAILURE REQUIRING HEMODIALYSIS.

ANY REDUNDANCY OF THE FACTS IS IN ORDER TO FIRMLY ESTABLISH THE CASE OF THE MANY SERIOUS COMPLICATIONS SUFFERED BY SHARON. EACH ONE OF THESE SERIOUS MEDICAL PROBLEMS COULD BE FATAL IN ITSELF.

AS WELL KNOWN, THE MORE ILL AND COMPROMISED A PATIENT, THE LESS RESERVES THERE ARE TO FIGHT INFECTIONS.

SHARON'S WEAKENED STATE OF HEALTH, IT IS INCREDIBLE THAT

HE WAS ABLE TO SURVIVE SUCH SERIOUS INFECTIONS AND OTHER COMPLICATIONS.

SINCE, THE LAST REPORTED COMPLICATION BACK IN NOVEMBER 2006, IT APPEARS AS THOUGH ARIEL SHARON HAS BEEN STATUS QUO FOR THE PAST 6 YEARS AND STILL IS IN A COMA. IT IS UNCLEAR IF HE IS STILL PARALYZED OR ON A VENTILATOR (BREATHING MACHINE).

BEARING IN MIND THAT PATIENTS WHO ARE INACTIVE DUE TO BEING BEDRIDDEN ARE MORE AT RISK FOR PNEUMONIA AND BEDSORES (WHICH THEMSELVES CAN LEAD TO INFECTION AND CLOTS).

THE FACT THAT SHARON IS ALREADY PREDISPOSED TO CLOT FORMATION (WITH A HISTORY OF THE PREVIOUS STROKE AND INTESTINAL CLOT) IT IS SURPRISING THAT WITH HIS INACTIVITY THAT THERE HAVE BEEN NO FURTHER COMPLICATIONS FROM CLOTS. NOTE THAT ONE CLOT TO THE LUNGS OR TO THE BRAIN CAN BE INSTANTLY FATAL.

IT APPEARS THAT IT MAY BE GOD'S GRACE AND DIVINE PLANNING THAT ARIEL SHARON EVER SURVIVED, AS WELL AS THE FACT THAT HE HAS NO HAD NO FURTHER SERIOUS COMPLICATIONS SINCE NOVEMBER 2006.
