

Our music and movies have changed a lot over the last 50 years. So much so, that there is very little similarity to anything that used to exist 50 years ago. Where once talent was not only required, but DEMANDED, now it is not expected nor sought. Hollering, screaming, yelling, and profane 4 letter words, make up musical & movie scripts and dialogue; and violence/ obscenity/immorality the action.

For those of us who have lived through the disgusting and unexpected changes in our music and movies, we could not help but wonder, "What has happened here!" How could all of this change so fast? What could be behind the change?

The video presented here not only gives you the answer to your question, but leaves absolutely NO DOUBT as to what is behind the change. It is an explicit video with UNIMPEACHABLE FACTS coming right out of "the horse's mouth!" that will not leave you uncertain any more about what is taking place in the music and movie industry of today.
